Summer Internships in the CT Greenhouse Industry

The greenhouse industry is growing!

An internship is a learning experience to try out a career path, define your career goals, learn more about yourself, and network.

Openings are available in the production and supply chain of businesses in several locations around the state. The following list includes areas in which internship opportunities are available for summer 2020.

1. Production of annual ornamentals in modern automated greenhouses.
2. Production and retail in small greenhouses and garden centers.
3. Production of perennial crops in greenhouse and nursery settings.
4. Inventory maintenance in box stores throughout the state.
5. Administrative department assistant. Develop and record standard operating procedures, assist in inventories and sales, among other activities.
6. Greenhouse maintenance as it relates to meeting sustainability certification.
7. Production of microgreens or lettuce in greenhouses.

Benefits:
1. Learn more about career opportunities in the green industry.
2. Expand your network in the green industry.
3. Gain internship credits. Opportunity to do SPSS 3081 as a zero credit summer internship, followed by SPSS 3990 for credit in the Fall semester. A minimum of 4 weeks of full-time employment shall be required for each credit
4. Hourly salary of $12 or more, actual rate will depend on experience and hiring company.

Requirements:
1. A GPA of 3.0 or greater
2. Ability to dedicate at least 30 hours per week for 14 consecutive weeks.
3. Be highly motivated and independent.
4. Ability to work with a diverse team.

To apply, submit the documents below to Rosa Raudales (rosa.raudales@uconn.edu) by March 31, 2020.

1. Unofficial transcripts
2. Updated Curriculum vitae
3. 500-word statement indicating interest in internship

Space is limited.

Application Deadline: 31 March 2020
